Did You Know...

- ◇ Early detection allows for more treatment options.
- ◇ Currently 6 out of 10 patients nationwide are diagnosed with late stage colon cancer.
- ◇ Colon cancer is the third leading cause of cancer related deaths in men and women in the U.S.
- ◇ Eating a low-fat diet that is rich in fruits and vegetables may decrease the chances of developing colon cancer.
- ◇ Eating a diet mostly of high-fat foods, being overweight, smoking, and being inactive are high risk factors for colon cancer.

A LITTLE KNOWN FACT...

People with a family history of this cancer, or those with inflammatory bowel disease are more likely to have colon cancer.
